STILL NOT
WORKING..

Think it more
carefully, after
finding Bai Tao,
how do I deal with
the bear? I totally
didn't think of that.

Going to
the forest
in hurry
is still not
okay...

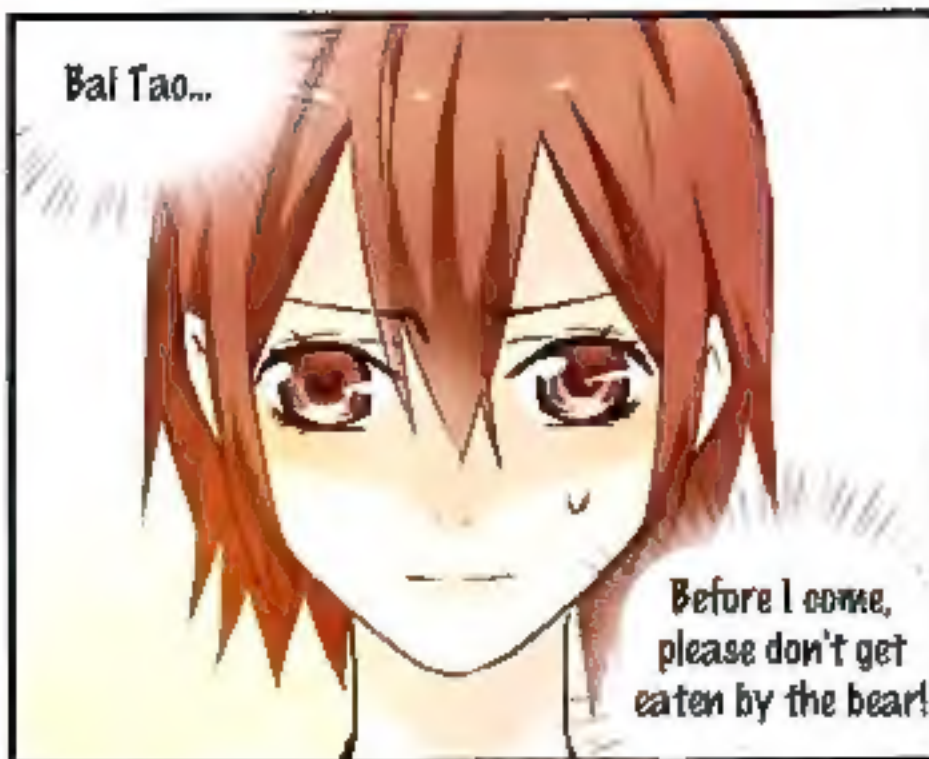

It's very bad.
The fog is getting
thicker, and the light
is also getting dim...

Right now,
I can't see
anything outside
2 meters area...

What should I do?
If it goes on...

There must
be a way!

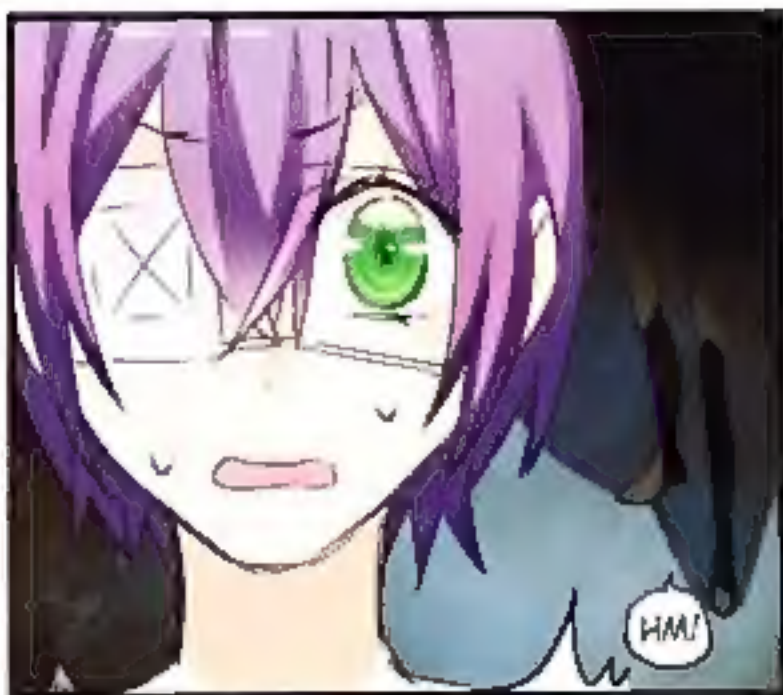

Bai Tao...

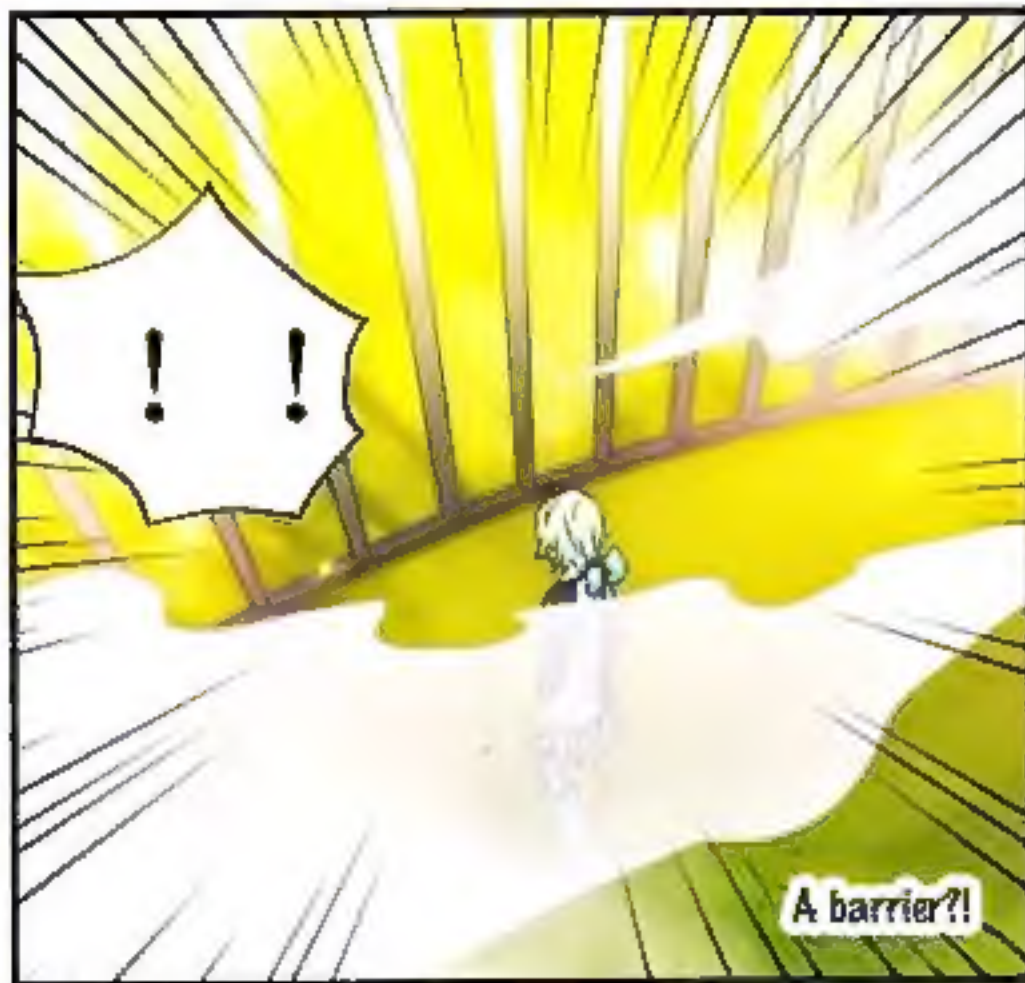

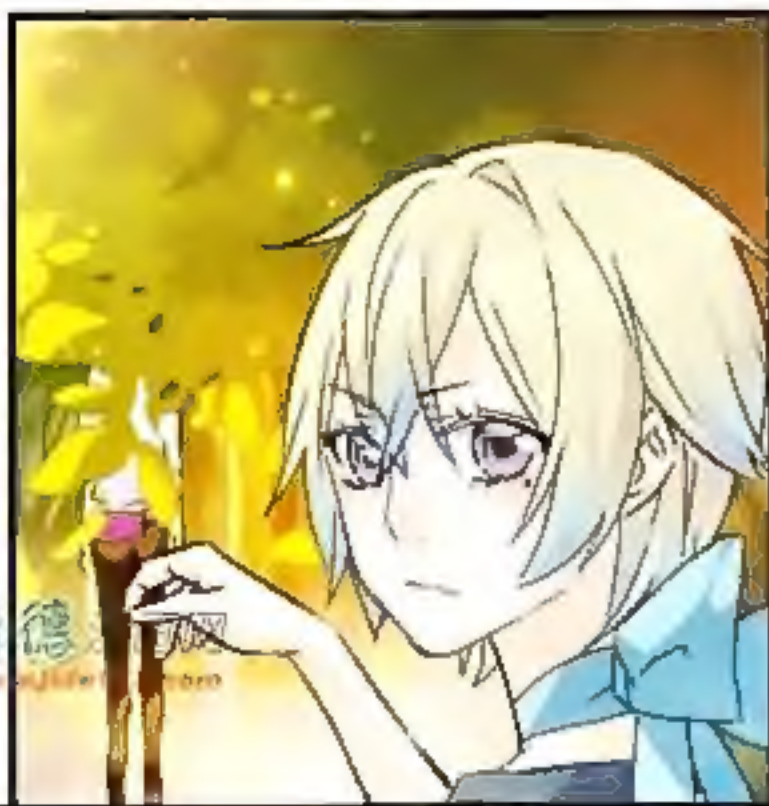

Before I come,
please don't get
eaten by the bear!
